

About this organisation

Texmo Blank is a family business with around 1,750 employees that has been successfully manufacturing investment castings for over 60 years and exporting them all over the world. The company produces long lifespan steel, aluminium, cobalt and nickel based precision castings in air and vacuum, and can also carry out further machining, mechanical processing and assembly in-house.

Texmo Blank is one of the leading investment casting foundries with modern production facilities in North America, Europe and Asia, providing global options for multinational OEMs. No other metal-forming process can produce as complex and as cost-effective geometries as the lost wax investment casting process. Texmo Blank's investment castings are easily distinguishable by the highest level of quality, precision down to the smallest detail, in an almost inexhaustible list of alloys. For more than six decades, we have been a premium partner to manufacturers in the automotive, mechanical and plant engineering, medical technology, aerospace and many other sectors.

Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
Offer			
Products Parts and components, Semi-finished parts, Systems and end products, Materials, Tools and moulds		✓	✓
Services & consulting Testing and trials, Engineering, Prototyping, Simulation		✓	✓
Field of technology			
Design & layout Lightweight manufacturing, Lightweight design, Lightweight construction concepts		✓	✓
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
Modelling and simulation Optimisation, Processes, Structural mechanics, Materials, Reliability validation		✓	✓
<i>Plant construction & automation</i>			
<i>Recycling technologies</i>			

Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
Manufacturing process			
Additive manufacturing 3D printing, Stereolithography, Others		✓	✓
<i>Coating (surface engineering)</i>			
<i>Fibre composite technology</i>			
<i>Forming</i>			
Joining Soldering, Riveting, Welding, Others		✓	✓
Material property alteration Heat treatment			✓
Primary forming Casting, Others		✓	✓
Processing and separating Drilling, Turning, Milling, Electrical discharge machining, Sawing, Grinding			✓
<i>Textile technology</i>			

Overview of lightweighting expertise
