About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

InnoMat GmbH is an innovative company in the field of polymer materials and fibre-reinforced plastics. The company's services range from research and development, material characterisation, product development and product design to prototyping and small series production.

Resin development, in particular epoxies and cyanates; thermoplastic and thermoset-based material development: Prepregs, core materials, sandwiches, laminates; material characterisation: volume dilatometry, mechanical characterisation; development of semi-finished products and components based on thermoplastics and thermosets; prototype construction and small series production; material studies on scientific and technical issues and developments in the field of polymer materials and fibre-reinforced plastics.

Kantstr. 55 14513 Teltow Brandenburg Germany

Organisation type

Small or medium-sized enterprise

Sectors

No specific sector

Employees

Up to 9

Turnover

Up to €2m

Funding

n/a

Main areas covered

Core and sandwich materials

Infrastructure

Chemistry laboratories, Measurement technology and test benches, Prototyping & small series

Certifications

Keywords

Memberships

	Research	N Development	/lanufacturing & Supply
Offer			
Products Parts and components, Semi-finished parts, Materials	✓	✓	✓
Services & consulting Consulting, Testing and trials, Prototyping, Validation, Technology transfer	✓	✓	✓
Field of technology			
Design & layout Lightweight construction concepts, Lightweight material construction	✓	✓	✓
Functional integration Media conductivity, Sensor technology, Material functionalisation	✓	✓	
Measuring and testing technology Visual analysis (e.g. microscopy, metallography), Materials analysis, Destructive analysis	✓	✓	✓
Modelling and simulation			
Plant construction & factory automation			
Recycling technologies Recycling	✓	✓
