## About this organisation

#### **Machine translation**

This profile has been machine-translated based on data provided in German.

ALPEX Technologies is a specialised supplier of high-quality production equipment for the manufacture of composite components. Leading companies from the aerospace, automotive and other industrial sectors rely on ALPEX as a development partner in the field of "Tooling for Composites".

Our extensive know-how and many years of project experience enable us to realise complex tools for different processes: - Preform moulds - RTM moulds (HP-RTM / LP-RTM) - Special RTM moulds (Compression RTM / Surface RTM) - Moulds for CFRP component production using the wet pressing process - Prepreg compression moulding tools (PCM) - C-SMC moulds - Laminating devices and bonding devices for prepreg processes or resin infusion processes - Assembly and handling devices - Milling devices For these mould solutions, we cover all steps from the initial concept, simulation, design, manufacture, assembly and quality control.

About this organisation	
Main areas covered	Means of production, Tools
Infrastructure	
Certifications	ISO 9001, EN 9100
Keywords	HP-RTM, C-RTM, S-RTM, Preforming, Preforming tools
Memberships	

# Overview of lightweighting expertise **Machine translation** This profile has been machine-translated based on data provided in German. Manufacturing Research **Development** & Supply Offer **Products** Machines and plants, Tools and moulds **Services & consulting** Testing and trials, Engineering, Prototyping, Simulation, Technology transfer Field of technology Design & layout Functional integration Measuring and testing technology Modelling and simulation **Processes** Plant construction & factory automation Plant construction, Handling technology Recycling technologies
