

KraussMaffei Automation GmbH

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

KraussMaffei Automation GmbH, Erding-Schwaig, has been a specialist in the development, design, manufacture, assembly and sale of demoulding systems for injection moulding machines for over 30 years. As a subsidiary of the Munich-based injection moulding machine manufacturer KraussMaffei Technologies GmbH, the latest technologies in the field of plastic injection moulding are researched and developed in joint cooperation.

In the field of lightweight construction, KraussMaffei Automation GmbH develops automation solutions for the processing of dry and pre-impregnated semi-finished thermoplastic reinforcements. The latter is summarised under FiberForm technology. KraussMaffei Automation GmbH is responsible for the product-orientated development of automation solutions consisting of the following processes: Quality assurance, handling, heating, insertion, removal.

Möslstraße 19
85445 Oberding-Schwaig
Bavaria
Germany

www.kraussmaffei.com/automation-de/

Main areas covered Gripper systems for semi-finished fibre products, Infrared heating technology, Automation concepts, Quality assurance, Participation in public projects

Infrastructure Articulated robots, Linear robots, Infrared heating oven, Handling units, Automation control

Certifications

Keywords FibreForm, Lightweight construction, Automation, Heating technology, Organosheet

Memberships

Organisation type

Small or medium-sized enterprise

Sectors

Employees

250 up to 499

Turnover

More than €50m

Funding

n/a

Overview of lightweighting expertise
