

High-Performance SMC

AZL Workgroup

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

The "High-Performance SMC" workgroup is an industrial working group made up of AZL partner companies and institutes that meet every six months for technology-orientated networking and to define joint pre-competitive research and development. Their business platform is currently being set up and will provide technology-relevant information such as use cases as well as contact to established suppliers and innovative partners.

In the High-Performance SMC workgroup, all competences along the entire process chain are represented in the area of high-performance SMC systems: From raw material manufacturers to tool and machine manufacturers, Tier 1 and Tier 2 to OEMs, from small and medium-sized companies to large international corporations.
