

Environment and occupational safety" working group

Network [AVK working group]

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

Network of market players along the entire composites value chain to exchange information on current requirements regarding environmental protection and occupational safety that are relevant for companies in the composites industry.

The latest result of the working group's work is the completely revised AVK manual "Environmental Protection & Occupational Safety". This was also made available to all AVK member companies in January 2014 and is updated regularly. In addition to discussing relevant topics (such as styrene, cobalt, etc.), guest speakers are also regularly invited to the working group meetings.

Environment and occupational safety" working group

Network [AVK working group]

About this organisation

Main areas covered	Network, Information bundling, Legal basis, Environmental protection, Occupational safety
Infrastructure	
Certifications	
Keywords	Environmental protection, Occupational safety, Environmental handbook
Memberships	

Overview of lightweighting expertise

Machine translation

This profile has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
<i>Products</i>			
Services & consulting Training, Consulting, Others: null			✓
Field of technology			
<i>Design & layout</i>			
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
<i>Modelling and simulation</i>			
<i>Plant construction & factory automation</i>			
<i>Recycling technologies</i>
