About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

Industry network / working group of various market players from the fields of hand lay-up and fibre spraying.

Exchange of experience in the fields of hand lay-up and fibre spraying. Its work focuses on the topics of quality management, education/training/further training and marketing. Among other things, the working group developed a new quality seal, which was awarded to companies for the first time at the end of 2013; the first recertification took place in autumn 2014. The seal is now marketed in cooperation with the SKZ (South German Plastics Centre). The working group also organises practical training, which was last held at Winter Kühlfahrzeuge in November 2014.
