

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

Outokumpu is the global market leader in the production of stainless steel with a cold rolling capacity of 2.4 million tonnes. We develop and produce state-of-the-art materials that are efficient, durable and recyclable. These materials help us all to create a world that lasts forever.

Development and provision of ultra-high-strength lightweight materials ($R_{p0.2} > 1000\text{MPa}$) in the field of stainless steels and development of the necessary joining technology for multi-material design.

Oberschlesienstraße 16
47807 Krefeld
North Rhine-Westphalia
Germany
