## About this organisation

### Machine translation

This profile has been machine-translated based on data provided in German.

Von Roll Deutschland GmbH is part of a globally active, listed Swiss industrial company based in Augsburg.

Production of thermoset composites based on a variety of different carrier materials (glass fabric, carbon fabric, cotton fabric, aramid fabric, polyester fabric, paper) and resin systems (epoxy, phenol, silicone). Prepregs in the B-state (dry) are pressed into flat laminates in high-pressure presses and manufactured into end products in our own processing centre according to customer specifications, or tubes are wound from the prepregs and finished. Low-pressure laminates using SMC polyester-based moulding compounds. Packaging and distribution of industrial adhesive tapes.
