About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

Hutchinson Aerospace is a leading systems supplier to the aerospace industry. We use our expertise in materials and engineering, state-of-the-art production processes and offer on-site and aftermarket services to fulfil your requirements.

Technology: - Prepreg components monolithic and in sandwich construction - Autoclave and out-of-autoclave technologies - Thermoplastic organic sheet processing in the area of very thin layer thicknesses - High-speed moulding - Thermoplastic joining using adhesive bonding and welding technology - Hybrid lightweight construction from thermoset/thermoplastic - Semi-finished product development / process development - Functional lightweight construction through integration - Integration of acoustic and thermal insulation

Overview of lightweighting expertise				
Machine translation				
his profile has been machine-translated based on data provided in German.				
	Research	N Development	Manufacturin & Supply	
Offer				
Products Parts and components, Semi-finished parts, Materials, Tools and moulds	✓	✓	✓	
Services & consulting Training, Testing and trials, Engineering, Standardisation, Prototyping, Validation, Simulation, Approval			✓	
Field of technology				
Design & layout Lightweight manufacturing, Lightweight design, Hybrid structures, Lightweight construction concepts, Lightweight material construction		✓	✓	
Functional integration Media conductivity, Others: null	✓	✓	✓	
Measuring and testing technology Component and part analysis, Visual analysis (e.g. microscopy, metallography), Materials analysis, Destructive analysis			✓	
Modelling and simulation Loads & stress, Optimisation, Processes, Materials			~	
Plant construction & factory automation				
Recycling technologies
