## About this organisation

### Machine translation

This profile has been machine-translated based on data provided in German.

Lindauer DORNIER GmbH is the technological market leader for machines for the production of high-quality semi-finished products in the textile and plastics industry.

Innovative solutions are summarised under the DORNIER Composite Systems® brand: - Systems for the continuous production of unidirectional fibre tapes - Machines for the production of high-quality tape fabrics - Production technology for the 3D weaving of integral reinforcement structures

### Organisation type

Large enterprises

### Sector

### Employees

500 and more

### Turnover

More than €50m

### Funding

n/a

### Main areas covered

Production systems for tapes, Tape looms, 3D weaving machines

### Infrastructure

DORNIER Composite Technology Centre

### Certifications

ISO 9001

### Keywords

Thermoplastic tapes, Tape fabric, 3D fabric

### Memberships
