

ST Extruded Products Germany GmbH

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

Innovative strength and high performance, openness and continuity characterise the ST Extruded Products Group, STEP-G for short, as the world's leading manufacturer of extruded aluminium profiles.

Innovation, performance, transparency and continuity - these are the qualities that characterise STEP-G. We are a global supplier in the manufacture of extruded aluminium products. The company is internationally orientated, with production sites in Germany, Belgium and China. We are highly specialised and offer a comprehensive range of extruded profiles, bars and machined profiles. We are passionate about the entire value chain, from the raw material to the component. Individual customer solutions take centre stage. Logistics solutions round off our portfolio.

Bergstraße 17
88267 Vogt
