

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

KUKA Industries is the reliable partner for intelligent, process- and customer-orientated cells and solutions. Experienced employees develop and integrate visionary automation ideas for the efficient and sustainable production of tomorrow. From the initial idea to production support, customers receive all products and solutions from a single source.

Fast and economical production of structures made of carbon fibre-reinforced plastic - Flexibly cooperating robot systems - Mechatronic handling systems - Automated CFRP production stations and systems - Robot-based processing stations - New technologies for the manufacture of fibre composite-based products Complete systems from a single source for aluminium foundry systems - Die casting automation - Mould casting machines for precise and controllable casting - High-speed deburring presses with intuitive, touch-based operation - Deburring tools for the highest functional and quality requirements - Complete processing stations

About this organisation

Main areas covered

Robot solutions, Grippers, machining tools, Processing of FVK, Handling of layers, preregs, Handling on presses, machines

Infrastructure

Certifications

ISO 9001, VDA 6.4 - Quality management, ISO 14001 - Environmental management, OHRIS, CHAS - Occupational safety, ISO 3834, AEO

Keywords

Industrial robots, Gripper, Processing, gluing, pre-treatment, Handling, Attachments

Memberships

Overview of lightweighting expertise

Machine translation
