

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

InnCoa is an engineering office for materials and surfaces and specialises in the investigation and prevention of corrosion damage. The company's core competences also lie in the areas of material selection, surface technology and environmental/corrosion testing.

Avoidance of contact corrosion, material selection, material analysis, damage investigation, selection of coating and surface technology,

Trepfenau 6
93333 Neustadt/Donau
Bavaria
Germany

Organisation type
Small or medium-sized enterprise

Sectors

Employees
Up to 9

Turnover
Up to €2m

Funding
n/a

Main areas covered Damage analyses, Material developments, Corrosion analyses, Applied development, Feasibility studies

Infrastructure Complete metallography laboratory, Tensile/compression test, hardness measurement, REM/EDX, Corrosion test chambers, E-chemistry, potential measurement, impedance

Certifications Based on ISO 9001

Keywords

Memberships

Overview of lightweighting expertise
