

Continuous fibre-reinforced thermoplastics" working group

Network [AVK working group]

About this organisation

Machine translation

This profile has been machine-translated based on data provided in German.

Working group & project group consisting of OEMs and raw material manufacturers and suppliers, including Arkema, BASF, Covestro, Dupont, Evonik, IVW, Lanxess/Bond Laminates, Sabic and Tencate.

The aim of the working group is to establish continuous fibre-reinforced thermoplastics in the automotive sector. A project group has currently been set up to deal with the efficient, robust and uniform characterisation of continuous fibre-reinforced thermoplastics and their transfer to standards.

About this organisation

Main areas covered	Research, Development, Standardisation, Project work, Network
Infrastructure	on request
Certifications	
Keywords	Continuous fibre-reinforced thermoplastics, Tapes, Organosheets
Memberships	

Overview of lightweighting expertise

Machine translation

This profile has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
Products Parts and components, Semi-finished parts, Software & databases, Systems and end products, Materials	✓	✓	✓
Services & consulting Consulting, Testing and trials, Standardisation, Validation	✓	✓	✓
