

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

ARISTO is the leading German manufacturer of multifunctional flatbed cutters for precise CAD / CAM machining of all non-metallic materials. Whatever you need to cut and process precisely - foils, textiles, cardboard or seals - we have the optimum solution for you.

Our cutting technology is already in widespread use for cutting composites such as CfK, prepreg, GRP and other fibre composites. The composite semi-finished products can be cut on an ARISTOMAT in a wide variety of designs/fabric structures. Well-known companies in the aerospace and automotive sectors already rely on the high-performance process technology from the innovative/traditional company ARISTO. Our flatbed cutting machines are also used in research and development. Various cutters with a wide range of tool technologies are available in our Hamburg ProcessCentre to create the required cutting tests and samples. The selection is not limited to cutting tools; marking and labelling is also possible with various technologies.

Schnackenburgallee 117
22525 Hamburg
Hamburg

Organisation type

Small or medium-sized enterprise

Sectors

Others: Verpackungsindustrie
Textilindustrie Druckindustrie Flach-
Dichtungen Signmaking

Employees

50 up to 249

Turnover

€2m - €10m

Funding

n/a

ARISTO Graphic Systeme GmbH & Co. KG

About this organisation

Main areas covered Flatbed cutter

Infrastructure

Certifications DIN EN ISO 9001:2008

Keywords digital cutting machines

Memberships

Overview of lightweighting expertise
