Leading innovator for virtual prototyping software and services

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

As a specialist in material physics, ESI has developed the unique expertise to support industrial manufacturers in replacing physical prototypes with virtual prototypes. This enables the virtual manufacture, production, testing and pre-certification of future products.

Thanks to the latest technologies, virtual prototyping is now anchored in the comprehensive concept of the product performance lifecycle, which addresses product performance and behaviour throughout the entire lifecycle from commissioning to disposal. To achieve this, ESI works with the Hybrid Virtual Twin - a virtual model that combines simulation, real physical properties and data analysis. This enables manufacturers to deliver smarter and connected products and predict their performance, behaviour and maintenance needs. ESI offers SOFTWARE SOLUTIONS in the following areas: Additive Manufacturing, Casting, CFD, Cloud, Composites, Data Analytics, Electromagnetics, Sheet Metal Forming, System Modelling, Vibro-Acoustic, Virtual Integration Platform, Virtual Performance Solution, Virtual Reality, Virtual Seat Solution, Virtual Systems & Controls, Welding

Siemensstr. 12B 63263 Neu-Isenburg Hesse Germany ☑ www.esi-group.com

Organisation type

Small or medium-sized enterprise

Sectors

Employees

500 and more

Turnover

Leading innovator for virtual prototyping software and services

About this or	ganisation
Main areas covered	PAM-COMPOSITES, PAM-STAMP, SYSWELD, Casting Simulation Suite, Virtual Performance Solution
Infrastructure	
Certifications	ISO 9001 : 2008
Keywords	Smart Virtual Prototyping, Engineering Solution, Software and services, Production, manufacturing and testing
Memberships	

Overview of lightweighting expertise Machine translation This organisation has been machine-translated based on data provided in German. Manufacturing Research Development & Supply Offer Products Software & databases Services & consulting Distribution, Testing and trials, Engineering, Prototyping, Simulation
