

# GWT-TUD GmbH

*Company for knowledge and technology transfer*

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

Industrial contract research, clinical research and the support of scientists in technology transfer - this has been GWT's business mission since 1996. In close co-operation with the TU Dresden and other universities and non-university research institutions, GWT contributes scientific achievements and research results to the development projects of its industrial customers.

GWT-TUD GmbH has set itself the goal of transferring research results into new processes and products more quickly. As a transfer partner, the company supports scientists in transferring their research results into projects with selected industrial partners. On the other hand, GWT provides support in the implementation of academic training for specialist engineers or managers on the subject of lightweight construction.
