

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

SGL Kumpers develops high-tech materials based on carbon and glass fibres. As a specialist in preforms (textiles made from high-performance fibres), we concentrate on the business areas of multiaxial fabrics, woven fabrics and 2D and 3D braids. State-of-the-art processing technologies and engineering skills guarantee materials with outstanding product properties - specially tailored to the respective area of application.

Thanks to close co-operation with partners from the wind, aviation, automotive and sports industries, SGL Kumpers has extensive experience in various application areas. With this expertise, we work together with our customers to develop innovative solutions that precisely meet their individual requirements profile - and thus make them more efficient and competitive.

Basilikastr. 22 - 30  
48429 Rheine  
North Rhine-Westphalia  
Germany

**Main areas covered** Textile semi-finished products for fibre composites

### Infrastructure

**Certifications** ISO 9001, ISO 50001

### Keywords

### Memberships

## SGL KÜMPERS

### Organisation type

Small or medium-sized enterprise

### Sectors

Others:

### Employees

50 up to 249

### Turnover

€10m - €50m

### Funding

n/a

## Overview of lightweighting expertise
