Product data management & simulation & product development

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

At d.u.h.Group, you will find a contact partner for CAD, CAM, CAE, data management (Teamcenter), software installation/maintenance, post-processors, process optimisation and additive manufacturing. To ensure that we can cater to all the needs of medium-sized manufacturing companies, each subject area is managed by teams of several people.

Since the company was founded, we have guaranteed exceptional consulting quality and comprehensive service as a digitalisation partner & engineering as well as a sales and service partner of Siemens PLM Software. To ensure that we can cater to all the needs of medium-sized manufacturing companies, each subject area is managed by teams of several people. At d.u.h.Group, you will find a contact partner for CAD, CAM, software installation, data management, maintenance, post-processors and process optimisation.

Product data management & simulation & product development

About this organisation

Main areas covered	Siemens sales partner, NX CAD/ CAE/ CAM / Additive / TC, Siemens digital software solutions, Engineering in the field of simulation
Infrastructure	Test benches for component development, Hydropulse systems
Certifications	Certified Siemens Partner
Keywords	Teamcenter for lightweight construction processes, Topology optimisation, additive manufacturing, Structural analysis, component optimisation
Memberships	NeXeo official training partner

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	N Development	Aanufacturing & Supply
Offer Products Software & databases, Systems and end products	~	~	~
Services & consulting Training, Testing and trials, Engineering, HR services, Prototyping, Validation, Simulation, Technology transfer, Maintenance and repair	\checkmark	\checkmark	~

Product data management & simulation & product development

Overview of lightweighting expertise			
lachine translation nis organisation has been machine-translated based on data provided in German.			
	Research	Development	Manufacturing & Supply
Field of technology			
Design & layout Hybrid structures, Lightweight construction concepts	\checkmark	\checkmark	
Functional integration Actuator technology, Sensor technology, Thermal activation		\checkmark	\checkmark
Measuring and testing technology Component and part analysis, System analysis, Destructive analysis		\checkmark	
Modelling and simulation Crash behaviour, Loads & stress, Life-cycle analysis, Multiphysics simulation, Optimisation, Processes, Structural mechanics, Materials, Reliability validation	~	~	~
Plant construction & automation Plant construction, Automation technology, Handling technology, Robotics	\checkmark	\checkmark	\checkmark
Recycling technologies			

Product data management & simulation & product development

Overview of lightweighting expertise			
fachine translation his organisation has been machine-translated based on data provided in German.			
	Research	N Development	fanufacturing & Supply
Manufacturing process			
Additive manufacturing 3D printing, Deposition welding, Electron beam melting, Laminated object manufacturing (LOM), Fused deposition modeling, Selective laser melting (SLM, LPBF,), Selective laser sintering (SLS), Stereolithography, Others (We have the entire NX software range for additive manufacturing.)	~	~	
Coating (surface engineering)			
Fibre composite technology			
Forming			
Joining			
Material property alteration			
Primary forming			
Processing and separating			
Textile technology			

Product data management & simulation & product development

Achine translation			
his organisation has been machine-translate	ed based on data provid	led in German.	
	Research	Development	Manufacturing & Supply
Material			
Biogenic materials			
Cellular materials (foam materials)			
Composites			
Fibres			
Functional materials			
Metals			
Plastics			
Structural ceramics			
(Technical) textiles
