

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

KVT-Fastening is an internationally active specialist for fastening technology in a wide range of industries and sectors. The company is part of the Bossard Group, within which it is the leading provider of intelligent solutions for industrial fastening technology. One focus is on lightweight fastening technology.

Specialised joining and connection technology for lightweight structures and support for lightweight design and construction. Joining and connecting elements and processes that fulfil the special requirements of lightweight materials. For example for sandwich structures or FRP.

About this organisation

Main areas covered	Connection technology, Fasteners for lightweight applications, Application counselling, Adhesive fastener, Connection concept development
Infrastructure	Local application consultants, Accredited test laboratory
Certifications	DIN EN ISO 9001, DIN EN ISO 14001, DIN EN ISO 50001
Keywords	Fastening technology, bigHead, MultiMaterial-Welding, Connection technology, Customised fasteners
Memberships	

Overview of lightweighting expertise
