## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

Smart composites ERZgebirge (SmartERZ) is one of 20 alliances selected in the first round of the "Change through innovation in the region (WIR!)" funding initiative of the Federal Ministry of Education and Research. The alliance is managed by Wirtschaftsförderung Erzgebirge GmbH, based in Annaberg-Buchholz.

More than 170 partners are already involved in the regional network of representatives from business, science and society. The focus of projects is on the functionalisation of innovative material composites (smart composites), which lays the foundation for sustainable innovation-based structural change in the Erzgebirge region. SmartERZ sees itself as an open, cross-industry and cross-company technology cluster that generates long-term regional added value and supports the recruitment of skilled labour in the region.

Adam-Ries-Straße 16  
09456 Annaberg-Buchholz  
Saxony  
Germany
