Component test

### About this organisation

#### **Machine translation**

This organisation has been machine-translated based on data provided in German.

Special machine construction specialising in automatic / inline component testing. Primarily active in the field of measuring magnetic imbalances.

Material and component testing in the production process. Testing of magnetic surfaces.

Queienfelder Straße 17 98631 Grabfeld Thuringia Germany ☑ www.koob-testsystems.de

**Organisation type** Small or medium-sized enterprise

Sectors

**Employees** Up to 9

**Turnover** n/a

Funding n/a

Component test

## About this organisation

Main areas covered	Programming, Electronics, Construction, Mechanical engineering, Machining
Infrastructure	Magnetic field test benches, Measurement of magnetic imbalances
Certifications	
Keywords	Magnetic rebalancing, Test bench construction, Automation technology, Programming
Memberships	

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

Offer	Research	N Development	Aanufacturing & Supply
Products Parts and components, Machines and plants, Software & databases, Systems and end products, Tools and moulds	~	~	~
<b>Services &amp; consulting</b> Testing and trials, Engineering, Prototyping, Validation, Simulation	$\checkmark$	$\checkmark$	$\checkmark$

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	N Development	lanufacturing & Supply
Field of technology		•	
Design & layout			
Functional integration			
<b>Measuring and testing technology</b> Component and part analysis, System analysis, Environmental simulation, Materials analysis, Destructive analysis, Non-destructive analysis	~	$\checkmark$	$\checkmark$
<b>Modelling and simulation</b> Optimisation, Processes	$\checkmark$	$\checkmark$	$\checkmark$
<b>Plant construction &amp; automation</b> Plant construction, Automation technology, Handling technology, Robotics	$\checkmark$	~	$\checkmark$
<b>Recycling technologies</b> Downcycling, Material separation, Recycling, Upcycling	$\checkmark$	$\checkmark$	$\checkmark$
Manufacturing process			
Additive manufacturing			
Coating (surface engineering)			
Fibre composite technology			
Forming			
Joining			
Material property alteration			
Primary forming			
Processing and separating			
Textile technology
