### About this organisation

#### Machine translation

This organisation has been machine-translated based on data provided in German.

Hunger Möbelproduktions GmbH is a supplier to the furniture industry, specialising in the processing of panel-shaped wood-based materials. In particular the production of fronts and design elements. Hunger also sees itself as a service provider for product development, material selection, delivery and sorting of a wide range of product groups. The target group is the furniture industry.

With lightweight construction solutions and the electrification of furniture we are innovation leaders. More and more manufacturers are opting for lightweight panels from Hunger. Their advantages are obvious: the innovative sandwich construction with construction with the specially developed support edge technology guarantees maximum weight weight savings without sacrificing load-bearing capacity and rigidity. The low weight, high strength and maximum design possibilities in terms of and edge variants are unbeatable arguments for contemporary furniture construction. furniture construction. All current hardware solutions from leading manufacturers are used in production manufacturers, such as the "Hettinject" joining technology. Our company has a fully automated unit for processing this technology.
