## Lightweight insulation and transport containers

### About this organisation

#### Machine translation

This organisation has been machine-translated based on data provided in German.

va-Q-tec AG is a young, medium-sized high-tech company and has been a pioneer in the insulation industry since 2001, developing innovative insulation solutions based on energy-efficient, space-saving and environmentally friendly vacuum insulation panels (VIPs). In addition to VIPs, va-Q-tec develops and sells other products such as high-performance thermal packaging and air freight containers as well as heat and cold storage elements (PCM).

va-Q-tec develops and sells lightweight insulation components such as vacuum insulation panels (VIPs) and generates highly efficient yet lightweight insulation boxes and containers. The focus for VIPs is on mobility applications. In terms of transport solutions, the focus is on the pharmaceutical sector and, increasingly, on food transport.
