

CVS engineering GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

The service portfolio of CVS engineering GmbH includes the development and production of compressors, vacuum pumps and systems for mobile applications in the fields of suction, silo and tanker vehicles, as well as in the railway sector for the generation of compressed air.

The focus of development is on the compact and weight-optimised design of our products, against the background of energy efficiency through weight reduction.

Gros mattstrasse 14

Organisation type

Small or medium-sized enterprise

Sectors

Employees

50 up to 249

Turnover

n/a

Funding

n/a

Main areas covered

Suction vehicles, Compressors for silos and vehicles, Compressors and compressed air systems, Ga compaction, Service

Infrastructure

Certifications

DIN ISO 9001:2015

Keywords

Memberships

Lightweight construction BW

Overview of lightweighting expertise
