## IPEK - Institute for Product Development

### About this organisation

#### Machine translation

This organisation has been machine-translated based on data provided in German.

The IPEK - Institute for Product Development is a research centre at the Karlsruhe Institute of Technology (KIT). We see ourselves as a centre for scientific product development and innovation with a focus on drive systems and mobility. We subdivide product development into its systems, methods and processes in order to do justice to the complexity of today's product development in a holistic way.

Effective lightweight construction is achieved when all potentials are consistently recognised and exploited - when lightweight construction is defined as an overriding goal within the product development process. This is why we are conducting research in international consortia with partners from industry and science into methods for a holistic view beyond (sub)systems as well as simulative and prototypical tools for tapping lightweight design potential. We are also researching ways of implementing and validating lightweight design endeavours in the product development process. In addition to research, our aim is to continuously develop and improve these lightweight construction methods with various industrial partners in a wide range of projects and programmes and to tailor them to individual problems.

Kaiserstrasse 10, Gebäude 10.23  
76131 Karlsruhe  
Baden-Württemberg  
Germany

## IPEK - Institute for Product Development

### About this organisation

<b>Main areas covered</b>	Development methods and processes, System Design, Lightweight construction potential in the overall system, Structural simulation and optimisation, Fibre composites
<b>Infrastructure</b>	Extended Reality Lab, Prototype Centre, Creativity lab, Research licences, Access to KIT's mainframe computer systems
<b>Certifications</b>	
<b>Keywords</b>	Product development, Design, construction and layout, Structural and multi-body simulation, Topology and bead optimisation, Validation and verification
<b>Memberships</b>	Lightweight construction BW, WiGeP, NAFEMS

### Overview of lightweighting expertise

#### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
<b>Products</b> Parts and components, Software & databases, Systems and end products	✓	✓	
<b>Services &amp; consulting</b> Training, Consulting, Testing and trials, Engineering, Prototyping, Simulation, Technology transfer	✓	✓	

**Overview of lightweighting expertise**

**Machine translation**

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Field of technology</b>			
<b>Design &amp; layout</b> Lightweight design, Hybrid structures, Lightweight construction concepts, Lightweight material construction	✓	✓	
<i>Functional integration</i>			
<b>Measuring and testing technology</b> Component and part analysis, Visual analysis (e.g. microscopy, metallography), System analysis	✓	✓	
<b>Modelling and simulation</b> Loads & stress, Multiphysics simulation, Optimisation, Processes, Structural mechanics, Materials	✓	✓	
<i>Plant construction &amp; automation</i>			
<i>Recycling technologies</i>			

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Manufacturing process</b>			
<b>Additive manufacturing</b> 3D printing, Fused deposition modeling, Selective laser melting (SLM, LPBF, ...)	✓	✓	
<i>Coating (surface engineering)</i>			
<b>Fibre composite technology</b> Fibre spraying, Pre-preg processing	✓	✓	
<i>Forming</i>			
<b>Joining</b> Hybrid joining, Adhesive bonding, Riveting, Screwing	✓	✓	
<i>Material property alteration</i>			
<i>Primary forming</i>			
<i>Processing and separating</i>			
<i>Textile technology</i>			

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

**Research**   **Development**   **Manufacturing & Supply**

#### Material

*Biogenic materials*

*Cellular materials (foam materials)*

*Composites*

*Fibres*

*Functional materials*

*Metals*

*Plastics*

*Structural ceramics*

*(Technical) textiles*

## Contacts

### Machine translation

This organisation has been machine-translated based on data provided in German.

Mr Univ.-Prof. Dr.-Ing. Dr. h. c. Albert Albers

*Institute Director*
