As one of the leading manufacturers of stainless steel screws in Europe, REISSER-Schraubentechnik in Criesbach produces fasteners for customers in the industrial, roofing, wall and solar sectors. REISSER offers coating solutions for components from a wide range of industries in its in-house electroplating facility. These include the automotive industry and valve technology.

The Retail division supplies specialised retailers, specialist stores and wholesalers. Sales systems for the point of sale also complement the product range. Innovative medium-sized company from the Kocher Valley Founded in 1921, the hardware retailer has evolved over the years into a specialist for fasteners and connecting elements with its own production facility. Under the leadership of Managing Directors Michael Dartsch, Alexander Kimmerle and Peter Plack, 340 employees work for the REISSER Group. The group includes subsidiaries in Romania and Hungary, as well as offices in France, Poland and Spain. However, production takes place exclusively in Germany. The product range includes more than 8,000 different screws and fasteners made of stainless steel, brass, steel, copper and special materials and alloys. The company is one of the leading manufacturers of stainless steel screws in Europe and has been part of the Würth Group since 1994.
