

HA-CO Carbon GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

HA-CO Carbon GmbH develops and produces individual carbon fibre reinforced (CFRP) and glass fibre reinforced (GFRP) components. Our professional solutions are primarily used in special machine construction when extreme demands are placed on low weight, high rigidity or low thermal expansion.

Our core competence lies in the design, calculation and production of fibre composite structures (CFRP & GFRP).
