

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

The core of Imprintec from Bochum are innovative testing devices with which the yield strength and tensile strength of lightweight materials can be determined quickly and with minimal destruction.

The testing devices can be used to test lightweight materials such as aluminium or magnesium alloys, as well as steels and other metallic materials.

Universitätsstr. 142  
44799 Bochum  
North Rhine-Westphalia  
Germany

**Organisation type**  
Small or medium-sized enterprise

**Sectors**  
No specific sector

**Employees**  
Up to 9

**Turnover**  
n/a

**Funding**

**Main areas covered**  
Materials testing

**Infrastructure**  
Imprinting process

**Certifications**

**Keywords**  
Materials testing, Innovation, Innovative strength measurement, Imprinting process

**Memberships**

Overview of lightweighting expertise
