

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

LXP-Group GmbH is a start-up company that specialises in the use/reuse of biomass that is no longer usable. Any type of biomass can be broken down using the patented digestion process. The biomass is broken down and separated into its 3 main components (cellulose/hemi-cellulose and lignin)

Utilisation of any biomass for the digestion of 2G raw materials (cellulose and hemicellulose) and natural, sulphur-free lignin

Rheinstraße 13  
14513 Teltow  
Berlin  
Germany

### Organisation type

Small or medium-sized enterprise

### Sector

Others: Chemie/Biochemie

### Employees

Up to 9

### Turnover

n/a

### Funding

### Main areas covered

Cellulose/Hemi-cellulose ; Lignin

### Infrastructure

### Certifications

### Keywords

### Memberships

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
<b>Products</b> Others (2G raw materials and natural lignin)			✓
<b>Services &amp; consulting</b> Testing and trials, Technology transfer			✓
<b>Field of technology</b>			
<i>Design &amp; layout</i>			
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
<i>Modelling and simulation</i>			
<i>Plant construction &amp; automation</i>			
<i>Recycling technologies</i>			
<b>Manufacturing process</b>			
<i>Additive manufacturing</i>			
<i>Coating (surface engineering)</i>			
<i>Fibre composite technology</i>			
<i>Forming</i>			
<i>Joining</i>			
<i>Material property alteration</i>			
<i>Primary forming</i>			
<i>Processing and separating</i>			
<i>Textile technology</i>			

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

**Research**   **Development**   **Manufacturing & Supply**

#### Material

*Biogenic materials*

*Cellular materials (foam materials)*

*Composites*

*Fibres*

*Functional materials*

*Metals*

*Plastics*

*Structural ceramics*

*(Technical) textiles*
