About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

We produce innovative fuelling systems in the fuel sector, selective catalytic reduction systems (SCR), camshafts and camera and sensor cleaning systems for automotive manufacturers worldwide. Kautex also develops pioneering solutions for the era of new mobility, such as battery systems (pentatonic systems) for hybrid and fully battery electric vehicles or autonomous cleaning systems for vehicles.

Expertise and systems engineering in extrusion and injection moulding technology and the processing of FRP materials.

Kautexstraße 52 53229 Bonn North Rhine-Westphalia Germany

Large enterprises

Sector

Employees

500 and more

Turnover

More than €50m

Funding

Main areas covered	Lightweight high-voltage battery housing, Extrusion and injection moulding techn., Fibre composites		
Infrastructure	Mechanical and thermal tests, Material analysis and analytics, Component & part analysis, Visual analysis (e.g. microcopy)		
Certifications	ISO 9001		
Keywords	Battery, Lightweight construction, Injection moulding, Impact extrusion, Plastics		
Memberships	IKV Advisory Board Group
