

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

Stuttgart University of Applied Sciences is a university of applied sciences in Baden-Württemberg with 36 degree programmes, 125 professors, 3850 students and around 100 researchers.

We have expertise in measuring, predicting and optimising the sound insulation of lightweight components. An acoustics laboratory with several test halls (window, door, wall, ceiling, ceiling support test rig) and measuring equipment (16-channel, 8-channel, 4-channel analyser, 3D scanning laser Doppler vibrometer, 3D intensity probe) is available. A research group with 9 researchers is at the start.

Schellingstraße 24  
70174 Stuttgart

### Organisation type

University or higher education institution

### Sectors

No specific sector

### Employees

250 up to 499

### Turnover

n/a

### Funding

### Main areas covered

Building and room acoustics, technical acoustics

### Infrastructure

### Certifications

### Keywords

### Memberships

## Overview of lightweighting expertise
