

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Production and distribution of cold-curing plastics, polyester systems, polyurethane systems and epoxy systems.

Our customers come from various sectors of industry, such as the automotive and transport sector, aviation, shipbuilding, the wind energy industry and the construction sector. In these industries, lightweight construction and weight reduction are driving elements for innovation. As a global system supplier of thermosets, we have many years of experience in the field of fibre composites. As a full-range supplier in this segment, we develop perfectly harmonised and demand-oriented solutions for almost every area of application. Our range consists of extensive standard and speciality products, which we supplement with products from renowned manufacturers. Our products meet the highest standards in terms of flexibility, flame retardancy, strength and chemical resistance. Our name stands for quality and efficient application solutions in the industrial sector.
