

# T. Michel Formenbau GmbH & Co. KG

*Developments particle foam components and tool making*

## About this organisation

We develop process technologies, customer applications, moulds and transfer the processes into serial production for and customers in the plastics industry. In our own development center we learn and train customers in particle foaming.

All with and around particle foam. Lightweight potential of the future with density from 12g/l to 300g/l. Environmentally friendly and sustainable expanded synthetic materials. (for example E-PP , E-PC , E-PET... ) Monocomposite systems from PP to EPP.

In der Zeil 10  
56355 Lautert  
Rhineland-Palatinate  
Germany

### Organisation type

Small or medium-sized enterprise

### Sectors

### Employees

10 up to 49

### Turnover

€2m - €10m

### Funding

# T. Michel Formenbau GmbH & Co. KG

*Developments particle foam components and tool making*

## About this organisation

**Main areas covered** Lightweight solutions Particlefoam, Particle Foam Technological Center, Particle foam development, lightweight systems , Mould manufacturing

**Infrastructure** Pilotfabrick for particle foaming

**Certifications** ISO 9001

**Keywords** Particle Foaming, Monocomposite, Hybrid lightweight design, Hybrid light weight

**Memberships**

## Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
<b>Products</b> Parts and components, Tools and moulds		✓	✓
<b>Services &amp; consulting</b> Consulting, Testing and trials, Engineering, Prototyping, Simulation, Technology transfer		✓	✓

# T. Michel Formenbau GmbH & Co. KG

Developments particle foam components and tool making

Overview of lightweighting expertise			
	Research	Development	Manufacturing & Supply
<b>Field of technology</b>			
<b>Design &amp; layout</b> Lightweight manufacturing, Lightweight design, Hybrid structures, Lightweight construction concepts		✓	✓
<b>Functional integration</b> Media conductivity, Sensor technology, Material functionalisation		✓	
<i>Measuring and testing technology</i>			
<b>Modelling and simulation</b> Loads & stress, Optimisation, Processes, Materials		✓	✓
<i>Plant construction &amp; automation</i>			
<b>Recycling technologies</b> Recycling		✓	

# T. Michel Formenbau GmbH & Co. KG

Developments particle foam components and tool making

Overview of lightweighting expertise			
	Research	Development	Manufacturing & Supply
<b>Manufacturing process</b>			
<b>Additive manufacturing</b> 3D printing		✓	✓
<b>Coating (surface engineering)</b> Galvanising, Powder coating			✓
<i>Fibre composite technology</i>			
<i>Forming</i>			
<i>Joining</i>			
<i>Material property alteration</i>			
<b>Primary forming</b> Others (-Foam / particle foam foaming - Combination foaming Injection molding / particle foam foaming -Combination foaming PUR / particle foam foaming)		✓	✓
<b>Processing and separating</b> Drilling, Turning, Milling, Electrical discharge machining, Sawing, Grinding, Cutting, Others (Lasertexture )		✓	✓
<i>Textile technology</i>			

# T. Michel Formenbau GmbH & Co. KG

Developments particle foam components and tool making

## Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
<b>Material</b>			
<i>Biogenic materials</i>			
<b>Cellular materials (foam materials)</b> Closed-pore, Open-pore, Others (Particle foam Popcorn Paper)		✓	
<b>Composites</b> Others (Monocomposite plastics)		✓	✓
<i>Fibres</i>			
<i>Functional materials</i>			
<i>Metals</i>			
<b>Plastics</b> Thermoplastics, Others (Particlefoam PUR Foam)		✓	✓
<i>Structural ceramics</i>			
<i>(Technical) textiles</i>
