ZEISBERG establishes fibre-reinforced plastics and nanotechnology in new industries. Zeisberg Carbon GmbH has been a manufacturer of fibre composite materials, component manufacturer, product developer and engineering service provider for complex fibre composite structures since 2016. The company produces complete CFRP parts sets for car manufacturers and factory racing teams, including toolmaking, design and simulation.

Zeisberg Carbon is a high-tech company specialising in carbon composites. The main business areas are: 1. carbon composite components: structural components, automotive components, assemblies for industry, aerospace, sports equipment and medical technology, built-to-print, design-to-spec, engineering, materials, manufacturing, tooling 2. wind turbine industry: resins for rotor blades, adhesives, R&D 3. construction industry: carbon concrete, materials, parts manufacturing, fire-retardant carbon armouring and coatings
