About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

We are active in the greenhouse technology sector and, in addition to service and maintenance, we also offer all repair activities. An important part of this is the conversion of existing roof coverings to film solutions. Planning + project construction are also part of our portfolio. Conversions of all kinds, renovations and repairs in garden centres, greenhouses or consumer markets are a focus of our company.

We also offer comprehensive solutions using film technologies, in particular ETFE. The focus here is on converting existing "heavy" constructions in the roof or wall area to significantly lighter ETFE film systems, which are ideal for horticulture due to their outstanding properties. The combination of glass and film also offers a wide range of possibilities in terms of a lightweight construction solution.

Senefelderstraße 4
48282 Emsdetten
North Rhine-Westphalia
Germany

Organisation type

Small or medium-sized enterprise

Sector

Others: Industrie- und Gartenbau, Gewächshausbau

Employees

10 up to 49

Turnover

€2m - €10m

Funding

Main areas covered

Garden centre, greenhouse technology

Infrastructure

Certifications EN ISO 50001:2018

Keywords Greenhouse, greenhouse technology, ETFE, polymer

Memberships

Wolfgang Block Industrie- und Gartenbau GmbH & Co. KG

Wolfgang Block Industrie- und Gartenbau GmbH & Co. KG
